Recommendation Letter for: **PIERRE HURET**

Dear MJM Graphic Design

I am Andrea Buosi, CEO & Founder of Crazy Web Studio Co.,Th. Established in Italy in 2011 and from 2015 in Thailand Phuket.

It is my pleasure to strongly recommend Pierre Hurret as visual designer, graphic designer and web design developer.

During our experience together, Pierre Hurret displayed great talents, with the redesign for the web and the app of my other company FlaminGO! The Phuket APP. When we first met, I was immediately impressed with the clean and defined design, but during the time we worked together, his understanding of brand and design grew far more than expected, providing always more than requested.

It's not just his technical skills that impress me, however. Pierre was a joy to work with because of his amazingly positive attitude and very calm and polite behavior. His positivity was also necessary and valued not just by myself, but also by my business partners, who often relied on his to get the job done.

I am absolutely confident that Pierre would be a great designer in the future and lot more to come also in the web-based development where we introduced him and he been able to show great interest and fast learning.

If you need more information, please do not hesitate to contact me directly.

Best Regards

Andrea Buosi
CEO & Founder
